Gentle Impact

AP 110/160

This typewriter has two great futures in store.

Canon

ELECTRONIC TYPEWRITERS

The first of a new generation that's two in one.

Introducing the Canon AP110/AP160, the Canon office typewriter that expands with ease to meet your typing needs today and tomorrow.

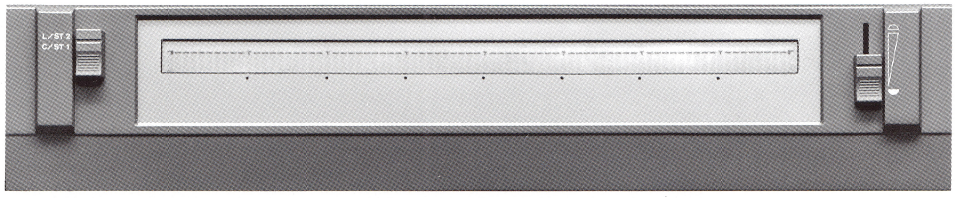
It's the now generation AP110, — the powerful office machine that's ready now to improve the professional typist's productivity. And, it's the next generation, the AP160, as well. You can transform the AP110 in minutes into one of the most advanced electronic typing systems on the market today by simply installing the Display Unit.

The now generation: AP110.

With its 15″ platen and 18 character-per-second print speed, the AP110 is ready for forms and correspondence alike. Automatic functions like column layout and line framing, decimal tabs, whole paragraph and block indent simplify formatting. The 700-character correction memory lets you fix mistakes with ease. The optional 148,500-word Spell Checker will warn of possible spelling errors.

The next generation: AP160.

The Display Unit gives your AP110 an 80-column, 2-line display, plus Global Search and Replace and a full range of Block Editing functions. Text Merge and Mail Merge to speed up document assembly and mass mailings. An expanded 1,000-character correction memory plus 31KB of text memory expandable to 63KB and the option of using a 3.5″ disk drive unit for external text storage. It allows you to use the Spell Checker or the even more powerful Spell Checker/Corrector that can warn of mistakes and suggest corrections as well.



The quality they share.

Choose the now generation AP110 or the next generation AP160. Canon's "Gentle Impact" printing system makes both remarkably quiet. Both offer the option of serial or parallel interfaces which let you use your typewriter as a top-quality printer for a personal computer or a word processing system like Canon's own VP5000. And both bring you the quality and durability for which Canon is world renowned.

So whether you move one generation ahead or two, your typing never looked better.

SPECIFICATIONS

	AP110	AP160
Print Unit	Print Element: Daisy wheel 96 characters Print Speed: 18 CPS bidirectional Pitch: 10, 12, 15, PS1, PS2 Line Spacing: 1, 1-1/2, 2 lines	Paper Capacity: 15 inches (381mm) maximum Writing Line: 12 inches (305mm) maximum Ribbon: Correctable, Singlestrike, Multistrike, Fabric Correction Tape: Lift-off, Cover-up
Correction Memory	Approx. 700 characters	Approx. 1000 characters
Text/Frame/Format Memory	4 page formats only Memory Protection: Approx. one year	Capacity: 31KB standard, expandable to 63KB Memory Protection: Approx. one year (for text, format and frame memory)
Display		Type: Liquid crystal display Capacity: 80 characters × 2 lines (including 1-ruler line)
Keyboard	Fully Automatic Keys: 46 keys Multilingual Capability: For 15 countries Key Buffer: 100 characters
